Dancin' in a Winter Wonderland follows the story of two siblings, Kacey and Alex. After reading a new bedtime story and going to bed, the siblings wake up to a snowstorm! They sneak out of their home to dance in the snowstorm, which eventually turns into a blizzard. As the siblings get scared and try to blame each other for getting stuck in the blizzard, they realize their arguing is actually causing the blizzard! Kacey and Alex stop arguing and wander into a newly found Wonderland. They learn the dances of many characters, enjoying their time with them, until Alex decides to eat a piece of candy from the Wonderland! This is forbidden and Alex is taken away to Candy Cane Jail inside the Candy Cane Kingdom. Kacey goes on her biggest adventure yet through the Winter Wonderland in search of Alex. She learns about the land and dances along the way!
