

Fundamentals What To Wear?

Wearing a uniform helps create a sense of unity among our students and allows them to fully immerse themselves in the dance experience. Additionally, it provides a safe and practical environment for dancers to move freely without any hindrances.

Wearing the dance class uniform also helps our instructors in assessing and correcting posture, alignment, and technique more effectively. It allows them to observe each dancer's movements clearly and offer personalized guidance to ensure proper form and development. By ensuring that all students come to class in the proper uniform, we can maintain a focused and productive learning environment for all dancers.

Uniform colors are required, but dancers may dress in any shirt of their liking as long as it matches their level's color!

In Ballet, Tap & Jazz Class I Can Wear...

**Level
Color:**

Deep Purple

Along with a t-shirt, black jazz pants or black athletic pants may be worn to class.

Pants that are too baggy will hide the dancer's knees and are not permitted

Black ballet shoes and black jazz tap shoes can be found at a local dancewear store or online!

These special shoes will be worn for all performances, so please make sure they are black

Thin black socks should always be worn underneath both shoes .
Do not wear outside!

Hair should be pulled back and away from the face for each class.

This helps our dancers stay focused on dance and not distracted, touching or re-doing their hair during class time.
